Re: **EM-VER-054-151214 – Cellco Partnership d/b/a Verizon Wireless
Birch Mountain Road, Glastonbury, Connecticut**

Dear Ms. Bachman:

On January 4, 2015, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility off Birch Mountain Road in Glastonbury, Connecticut. Cellco's modifications involved the installation of new antennas, remote radio heads and associated equipment.

As a condition of its approval, Cellco was required to provide the Council with a letter stating that it had complied with the recommendations made in the structural report attached to the exempt modification filing. Attached is a Tower Modification Certification letter verifying that the installation was completed according to that structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

RE: Tower Modification Certification

Project: Verizon Glastonbury CT
48 Birch Mountain Road, Glastonbury, CT

Tower Owner: Unknown

Engineer: AECOM

APT Project No.: CT1416010 Glastonbury

CSC Exempt Mod Reference No.: EM-VER-054-151214

Dear Mr. Parks,

All-Points Technology Corporation, P.C. (APT) is providing this 'Tower Modification Certification' with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by On-Air Engineering, LLC:

- Review of AECOM's Structural Analysis (AECOM project #36928713) dated 8/4/15;
- Field Observations by APT personnel on 6/14/17 of the completed modifications which determined all modifications were installed in general compliance with the recommendations of the aforementioned structural analysis.

The structural analysis prepared by AECOM demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution

Sincerely,
All-Points Technology Corporation, P.C.

Robert E. Adair, P.E.
Principal
