Dear DEEP. I listened in on the STEP SCEF meeting tonight and was unable to get the phone number to call in(maybe I missed it at the very start of the meeting.) Anyhow, I wanted to propose a discussion modality in addition the ones listed in your info(unless I missed one similar to own):

I would like to see a discussion of the status and future of the actual ownership of the SCEFs after their construction. Can we create a framework for ownership, at least partly, by parties other than the developers.(If this exists already, where can the protocol be found.) I guess this a general question on the nitty, gritty propriety of these facilities(private, state, municipal, cooperative, mix etc.) This would fall under the "transparency" part of STEP, I guess.

Sincerely,
James Root
Danbury
